SUMMARY OF TELEPHONIC INTERVIEW

Pursuant to MPEP § 713.04, Applicants submit this Summary setting forth a statement of the substance of the telephonic interview on September 7, 2005.

Brief Description of the Nature of any Exhibit Shown or any Demonstration Conducted:

No exhibits were shown and no demonstrations were conducted.

Identification of the Claims Discussed:

Independent claims 1, 21, and 41 were discussed.

Identification of Specific Prior Art Discussed:

U.S. Patent No. 5,926,526 to Rapaport et al. ("Rapaport") was discussed.

1754682v1

1

Serial No. 09/829,273
Filed: 4/9/2001

CRNI.78765

Identification of the Principle Proposed Amendments of a Substantive Nature Discussed:

Applicant's representative, the Examiner, and the Examiner's supervisor discussed amending independent claims 1, 21, and 41 to remove previous amendments that the Examiner and the Examiner's supervisor indicated are unnecessary to overcome the Rapaport reference in view of the discussion during the interview.

The General Thrust of the Principal Arguments of Applicant and the Examiner:

With respect to the 102(b) rejection of independent claims 1, 21, and 41, Applicant's representative discussed distinctions between the present application and the Rapaport reference. Generally, the Rapaport reference fails to describe a computer system that may receive a medical test result and translate the medical test result into a plain language explanation. Instead, the system in the Rapaport reference merely serves a means to communicate a message to a patient and the system itself performs no translation.

General Indication Of Any Other Pertinent Matters Discussed:

The Examiner kindly indicated that he would take all arguments into consideration.

Respectfully submitted,

John S. Golian
